

REFERENCE LETTER

Düsseldorf, 27.09.2012

Personal data: Seweryn Bidołach
Company: Gettings GmbH (Subsidiary of E-Plus (German Telecommunication))
Project: Gettings Backend Platform and Mobile Site
(Gettings is the location based advertising platform in Germany)
Collaboration: 01.10.2011 – 05.08.2012
Duties/Posts: Senior Programmer and Code Architect
Tasks: - Design and programming of complex code
- Preparation and writing of the technical documentation
- Contact with customer and requirements engineering

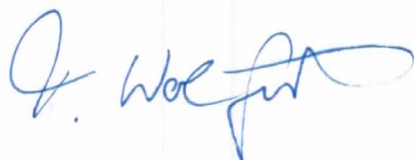

Mr. Bidołach was very engaged throughout the whole project. All his duties he conducted with great responsibility and with great detail at any time. Mr. Bidołach is an ambitious, creative and reliable developer.

He is not afraid of challenges and is always watching out for new possibilities and fast solutions. He possess a lot of technical skills that enable him to perform various tasks. Among other technologies he is quite familiar with J2EE, Hibernate, iBatis, Spring and JavaScript with the dojo, jquery, jsonrpc frameworks. Next to this he developed on our REST API interface and did a couple Apache-Tomcat setups and configurations.

Mr. Bidołach used those technologies and his professionalism to create our mobile web application and the main java backend engine for our project. The application is developed around the Eclipse environment supported by some Maven configuration.

As the technical lead from Gettings I was able to observe the efforts of Mr. Bidołach's work and accomplishments. Therefore I can recommend Mr. Bidołach as an employee or business partner for technical projects. He is able to design, program and accomplish the requested tasks in a fast and reliable manner. Someone can count on his expertise.

Yours sincerely

Torsten Wohnfurter
Technical Director
